

# CO-OPERATIVE CONSTRUCTIONS

## FIRST IDEAS 2

**“In the long history of humankind (and animal kind, too) those who learned to collaborate and improvise most effectively have prevailed.”**

Charles Darwin

Who are your members, and what service/product will you provide for them?

Where will your co-op be located? Will it be in a city, small town, or rural area? What neighbourhood? Will there be an office/offices? Why would this be an ideal location?

What will be some of the major costs involved with starting and running this co-op?

What are some possible partnerships or co-operative possibilities?

What are some potential names for your co-op? (When thinking of these, don't forget to look back at the answers above to make sure the names fit with the feel of your co-op.)
